## DETAILED ACTION

### *Examiner's Amendment*

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Ronald E. Prass, Jr., Esq., on 25 September 2006.
3. The application has been amended as follows: replace all previous versions of the claims with the attached claims 1 and 3-30.

### *Allowable Subject Matter*

4. Claims 1 and 3-30 are allowed.
5. The following is an examiner's statement of reasons for allowance: The closest US patent prior art (for all independent claims 1, 13, 16, 19, 23, 27 and 30) is Eldering et al. (US006684194B1). Eldering et al. does not teach or suggest using the aggregated demographic data of the population in a region to derive a user model identifying the demographic specification that most closely matches viewing behavior at a particular set top box. WO 9960789 A1 and Van Tassell are respectively the closest foreign patent and non-patent prior art. Each generally teaches identifying the demography of individual subscribers/set top boxes, but neither teach or suggest using the aggregate demographic data of the population in a region to derive a user model identifying the demographic specification that most closely matches viewing behavior at a particular set top box.
